PROFESSIONAL SUMMARY

Java Full Stack Developer with experience building production-grade applications using React.js, Spring Boot, and MongoDB. Skilled in RESTful API design, JWT authentication, Spring Security, and responsive UI development. Proven ability to deliver features in Agile teams and contribute to scalable, real-world software products.

EXPERIENCE

Java Full Stack Developer Intern *Fourise Software Solutions*

Feb 2026 – Present
Pune, Maharashtra

- Contributed to PGMate, a production SaaS platform for PG accommodation management, serving property owners and tenants
- Engineered a 4-option room-sharing feature with REST API using Spring Boot and MongoDB, reducing manual owner effort
- Built fully responsive Owner dashboard mobile view using React.js ensuring cross-device compatibility
- Integrated real-time stats cards on Admin and Owner dashboards consuming live REST API data for instant business insights
- Improved Admin panel UX with dynamic modals, multi-column sorting, search filtering, and pagination for large dataset management
- Maintained 16+ commits across feature branches following Git Flow in Agile team with regular sprint cycles

PROJECTS

ShopMate – Full Stack E-Commerce Platform | *React.js, Spring Boot, MongoDB, JWT* | [Live Demo](#)

- Built full-stack e-commerce app with User and Admin interfaces supporting cart, wishlist, catalog, and order management
- Implemented JWT authentication with Spring Security, RBAC for User/Admin roles, and BCrypt password hashing
- Developed 10+ REST API endpoints for auth, product CRUD, cart, orders, coupon validation, and reviews
- Admin dashboard with product management, base64 image upload, inventory control, and coupon engine with expiry and discount-cap logic
- Responsive React.js frontend with dark/light mode, category filtering, product modals, and paginated collections

Personal Portfolio Website | *React.js, Spring Boot, MongoDB* | [Live Demo](#)

- Full-stack portfolio with React.js SPA frontend and Spring Boot REST API backend, deployed on Vercel
- Password-protected Admin Panel for dynamic content management without code changes or redeployment
- Matrix rain animation, scroll-reveal effects, custom cursor glow, and typewriter animation for polished UX
- Responsive dark/light mode layout across all screen sizes

EDUCATION

Bachelor of Science in Computer Science *Haribhai V. Desai College – Savitribai Phule Pune University, Pune*

Jan 2025
CGPA: 7.13 / 10

TECHNICAL SKILLS

Languages: Java

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Design

Backend: Spring Boot, Spring Security, Hibernate, JDBC, JSP, Servlet

Databases: MongoDB, MySQL **API:** RESTful API Design, JWT, RBAC

Tools: Git, GitHub, Postman, Maven, XAMPP, Apache Tomcat, IntelliJ IDEA, VS Code

Soft Skills: Problem Solving, Agile Collaboration, Communication, Adaptability

CERTIFICATIONS & LANGUAGES

Certification: Java Full Stack Developer Certification – Seed Infotech, Pune **Languages:** Marathi (Native), Hindi (Fluent), English (Professional)
